## OFFER OF CHAMOIS HUNT (ROMANIA)

### **Place:**

Hunting grounds in the counties of Braşov, Arges and Prahova. The grounds are mountainous (altitude from 1,500 m above sea level), but they can also be hunted by hunters with a weaker condition (good logistics). In all cases, these are very well-gamed grounds with a large population of very strong chamois. The trophy quality of Romanian chamois is the best in the world, as evidenced by the table of world trophies caught so far. We will agree on the choice of specific grounds depending on the requirements of the hunting guest and the development of the weather (snow cover...).
