

OFFER OF A RED DEER HUNT IN THE RUTTING SEASON

(ROMANIA)

Place:

- Hunting grounds in Bihor, Kluj, Alba, Sibiu, Mures, Covasna, Brasov and Harghita counties. The districts are mostly mountainous (altitude from 800 m above sea level), but they can also be hunted by hunters with a weaker condition (good logistics). In all cases, these are well-gamed areas (however, they cannot be compared with southern Hungary or the grounds of southern Slovakia). The trophy quality of most game deer ranges from 8 to 9 kg, but several deer with a trophy weight exceeding 10 kg are caught here each year. The antlers of deer living here are characterized by less numerous branches and coarse and long trunks (typical Carpathian deer). We will agree on the choice of specific grounds depending on the requirements of the hunting guest.

Time:

- September (the peak of the rutting season September 20 – October 5, depending on weather and altitude)
