

OFFER OF A RED DEER HUNT IN THE RUTTING SEASON

(SLOVAKIA)

Place:

- Hunting grounds within the whole territory of Slovakia. These are districts in use of LESY SR, š.p. and excellently-gamed private grounds. The grounds are mostly mountainous (altitude from 800 m above sea level), but they can also be hunted by hunters with a weaker condition (good logistics). In all cases, these are wonderfully gamed grounds. The trophy quality of most stags ranges from 6 to 8 kg, but several deer with a trophy weight exceeding 9 kg are caught here every year (Slovak deer trophies are significantly lighter than antlers with similar volume in Hungary). We will agree on the choice of a specific area depending on the requirements of the hunting guest.

Time:

- September (peak of the rutting season September 15 - 25, depending on the weather and altitude)
