

## OFFER OF A COMMON PHEASANT HUNT (SLOVAKIA)

### Place:

- Pheasantries Hrable (flat terrain) and Čereš (hilly terrain) in the vicinity of the town of Levice. The game bag depends exclusively on the shooting skills and financial capabilities of the hunting guests. Pheasants fly well and are nicely feathered. In the case of the Čereš pheasantry, the hunting experience is multiplied by the rugged terrain, where flying pheasants reach a height of 50 m.

### Time:

- October – February (we will agree on a specific date according to the possibilities of the hunting group)

### Method of hunting:

- Battue - shooters are positioned on the shooting stands (min. number of shooters: 6, max. 12, optimal 8)
- Number of drives: 4 - 6 (shooting stands are decided by drawing lots – the shooting guest has a different shooting stand for each drive)
